Goal: 1. To design effective learning environment and tools to support learning. 2. To provide individual care in both intellectual and psychological aspects. The Content that required initiation of the practice: Majority of the students fail to interact with their teachers to meet their needs on academic side. If there is enhancement in interaction with teachers it might be an enhancement to mould their academic activities and they will feel free to seek guidance about proper study habits and seek

counseling to get rid of the obstacles in learning. Impact of the practice: Once in a month the students met their respective tutors and share their feelings, opinions, clarify doubts and seek guidance regarding their academic activities and the institution is happy to realize the improvement among the students in academic and extra – curricular aspects. Obstacles and strategies adapted to overcome: It increases the work load of teachers as they have to care few students then and there apart from the formal meets. Few extra classes apart from the college hours were allotted for such weeks. Meanwhile these obstacles were overcome by encouragement and support by the faculties and students.
